LEBANON

[Original: English]

[28 October 1993]

The Permanent Mission of Lebanon to the United Nations has the honour to transmit herewith information relating to Lebanon exports and imports of conventional arms for 1992 in accordance with General Assembly resolution 47/52 L of 15 December 1992, entitled "Transparency in armaments".

Lebanon, like most small developing countries, relies on international law as the basis for its protection. It has neither the capability, capacity nor desire to develop either conventional or mass destruction weapons and has generally sought to provide for its people's security under the auspices of the United Nations or United Nations-approved collective security arrangements. Subsequently, Lebanon is pleased to report that throughout the 1990s it has neither produced, exported not imported any arms, and is in full compliance with General Assembly resolution 47/52 L.

The Government of Lebanon reaffirms its commitment to the achievement of transparency in all types of armaments, their national production, export and import, holdings and military programmes. Towards that end, it supports the expansion and revision of the Register, in accordance with the provisions of paragraphs 8 and 11 of General Assembly resolution 46/36 L, of 9 December 1991, to include weapons of mass destruction and their components in addition to conventional arms.
